June 2011

Dear resident,

Elizabeth Garrett Anderson Language College

The foundations work for the new school building is progressing well. The foundation work includes excavating down below street level to house the sports hall in a basement structure. Work on the foundations will continue until mid July. The concrete superstructure frame will start mid July.

Construction traffic will increase during June & July. We have trained traffic marshals to help safely manage the movement of vehicles when they enter or leave the site. In addition, vehicle entry points are controlled by gatemen for public safety.

The two tower cranes are now operational in time for the concrete superstructure work.

The site is completely secured with timber hoarding, gates and lighting for public protection.

The next residents meeting for the Elizabeth Garrett Anderson Language College redevelopment project is scheduled for 18th July 2011.

Please feel free to contact me using the details below should you wish to discuss any issues or queries you may have relating to the project.

Best regards
